

Press release

Appsoft has been renamed Xpublisher GmbH

Munich, November 29, 2016 – Effective immediately, Appsoft Technologies GmbH, based in Munich, is now Xpublisher GmbH.

With the name change, the product brand Xpublisher is strengthened and the strong product orientation of the company will be promoted. The structure and all other data of the company remain as is.

Xpublisher GmbH offers software solutions for XML-based work and publishing. It is also the manufacturer of the editorial system of the same name. The editorial system Xpublisher enables the production of high-quality and layout-intensive books, magazines and marketing documents as well as the publishing into all digital channels. The editing system has interfaces to Adobe InDesign, Adobe InCopy and Adobe Photoshop. Via InDesign-Server the production can be fully automated.

Xeditor is a web-based XML editor that creates media-neutral and reusable documents in XML format.

Target group

- Publishers and Media houses
- Technical documentation
- Corporate publishing
- Universities, educational institutions, mail order industry, etc.

Customers

IDG, Wolters Kluwer, De Gruyter, Haufe Lexware, Michael Page, Bibliomundi, publishone, Blbliomundi, DocCheck, Heinze etc
